

## Permitting & Compliance

Since 1986, the EDM team has assisted with applicable federal, state, local, and tribal permitting requirements and regulatory review processes. EDM's Environmental Services Group regulatory focus and specialties include:

- National Environmental Policy Act
- Endangered Species Act
- Migratory Bird Treaty Act
- Bald and Golden Eagle Protection Act
- National Historic Preservation Act
- Linear Routing
- Wind Energy Siting
- Communication Tower Siting and Review
- Environmental Assessments
- Environmental Impact Statements
- Natural Resource Assessments
- Rare Plant Surveys
- Vegetation Management
- Biological Assessments & Evaluations
- Biological Data Acquisition and Analysis

EDM's Environmental Services Group has extensive experience working under the National Environmental Policy Act, Endangered Species Act, and Migratory Bird Treaty Act, encompassing large, third-party, multi-agency Environmental Impact Statements, Environmental

Assessments, interstate permitting projects, and natural resource planning programs. EDM often works directly with the federal lead agencies and the U.S. Fish and Wildlife Service in facilitating section 7 consultations under the Endangered Species Act, emphasizing a proactive, yet practical, communicative approach to issue resolution in coordination with the permit applicant, land management agency, and applicable regulatory agencies.

EDM focuses on analyses that are accurate and defensible in an effort to streamline agency and public review. This approach minimizes potential schedule delays and associated costs with the permitting processes – particularly for large or complex projects.
